

Dear Residents,

I just finished another call with all the Mayors of Bannock County and the Commissioners. We have had a few of these phone calls over the last couple weeks and I want to give a shout out to our County and City officials. There are people in every City and at the County that are very diligent in trying to keep us safe.

I want to put out some information for everyone and invite each of you to share it with others so that we can stay as informed as possible. We are in the same District Health Department with 6 other counties and the tribe here in S.E. Idaho. Maggie from our district was on the call [this morning](#) and she gave some very informative statistics for the state and for our region. We still have only 3 confirmed cases in our area but there are others waiting for test results to get back that may be positive. The web site for the Health Dept. is [WWW.siphidaho.org](http://WWW.siphidaho.org). There is a banner for Covid that you can click on and get the statistics for each region of the state. There is also a hotline at the Health Dept. that you can call if you have questions. That number is 208-234-5875.

We are doing well so far in our area and hope that with each one of us being diligent, we will continue to do so. One of the Health Department's mottos is "Bringing our communities together by staying apart." Let's continue to do our part. Another thought from the Health Department is "Sacrifice the me for the we".

Thank you all for being part of the great community of Inkom.

Max
